DANILO TAVARES LIMA

Brasília, Federal District, Brazil — danilotavares070@gmail.com — LinkedIn — GitHub — WebSite

EDUCATION

Software Engineering
Universidade do Distrito Federal – UDF
Brasília, DF
January 2025 — December 2028

SKILLS

Languages (Tech): Python, TypeScript, JavaScript, Java, C
Frameworks & Libraries: React, Node.js, Fastify
Data Science & Machine Learning: NumPy, Pandas, Scikit-learn
Databases: PostgreSQL, MySQL
Tools & DevOps: Git, Docker, Docker Compose, Vercel
Languages: Portuguese (Native), English (Intermediate)

PROJECTS

NASA Space Apps Challenge Brasília 2026 – Website
Full-stack website development for the hackathon organization, featuring landing pages and registration forms, from initial setup to deployment.
Technologies: React, TypeScript, Express.js, PostgreSQL, Drizzle ORM, Tailwind CSS, Vite, Vercel.
GitHub — Website

Igris Platform — Observability and Anomaly Detection
Development of an observability platform for capturing and analyzing hardware metrics, utilizing Isolation Forest for anomaly detection and alert generation. Implemented the frontend and detection pipeline, storing metrics in a time-series database.
Technologies: TypeScript, React, Fastify, InfluxDB, Python, Pandas, Isolation Forest, Drizzle ORM, Zod.
GitHub

Movie Garden
Development of a full-stack movie discovery and exploration application, integrating the TMDB API and generative AI features. Implemented a React frontend, Fastify backend, and a Python service for AI-driven features.
Technologies: TypeScript, React, Fastify, Prisma, FastAPI, Python, Zod, Google Generative AI, TMDB API.
GitHub

VOLUNTEERING AND EXTENSION

Monitor – National Science and Technology Week (SNCT), MCTI
Acted as a monitor during the National Science and Technology Week, assisting participants and supporting event activities.
Certificate

Digital Inclusion for the Elderly — Extension Project
Extension project focused on the digital inclusion of the elderly, identifying smartphone usage difficulties through forms and producing educational videos on features such as video calls, account access, and digital payments based on identified needs.
YouTube

CERTIFICATIONS

Machine Learning in Artificial Intelligence – The Rocketseat Technology College, 2026 — Credential
Deep Learning Specialization – DeepLearning.AI, In progress, 2026
